Research Administration and Compliance Meeting  
May 25, 2011  
1:00 – 3:00 p.m.  
Larrick Hall

**Agenda**

**Welcome**

**Staff Updates and Introductions**

**General Items/Updates**
- FACR Revenue Distribution – Patricia Perkins
- Research Dashboard Project – Patricia Perkins
- Required Training – Investigator and Administrator Training
  - Submitted to CAR Training Subcommittee for Review
- CAR Policies and Procedures Subcommittee – Susan Robb
- G&C/OSP Relocation – Susan Robb & Mark Roberts

**G&C Updates – Mark Roberts**

**Effort Reporting Updates – Presepine Fleming**

**OSP Updates**
- IAF Change – Clarifications – Susan Robb
- Transaction Routing Form – Susan Robb
- NIH Deadlines – Susan Robb
- VCUeRA Workflow Update – Annie Publow
- Summer CleanUp Project – Annie Publow
- Certification Program – Annie Publow
- Clinical Trial Definition – Melanie Wiggins
VCU Research Dashboard Project

RACM Meeting – May 25, 2011
Research Administrator Update

Tricia L. Zeh, M.S., Director of Research Administration
Virginia Commonwealth University, School of Medicine
What is a Dashboard?

- A customizable user interface that integrates and organizes information from multiple sources in a way that is easy to read and interpret.

- Dashboards must be built so that data is presented both accurately and timely, and with appropriate user-level security.
What is the purpose of the VCU Research Dashboard Project?

- Develop a Research Dashboard that is:
  - Secure
  - Accurate
  - Easy-to-use
  - Customizable

- The Research Dashboard will provide:
  - Integrated access to research financial and administrative data from multiple VCU systems
  - Improved resource management, compliance, reporting, and financial management
Primary Audience: Principal Investigators (PI)

The Research Dashboard will provide PIs a central portal for managing research projects including:

- Direct access to financial reports and management tools for their sponsored research projects
- Administrative information such as: pending proposals, IRB/IACUC protocols, and effort commitments
- Links to resources and training to aid in sponsored projects management.
Secondary Audience: Dept Administration - Research Administrators, FAs, Chairs

The Research Dashboard will aid administrators in assisting PIs/Department Chairs in managing research portfolios by:

- Integrating information from multiple sources into the Dashboard
- Providing new financial management tools and improved reporting to increase efficiency and compliance in managing research projects.
What are our goals?

- Clear & easy-to-access information for PIs
- New and improved management tools for administrators
- Increased compliance, efficiency
- Enable better communication between PIs and administrators

What will the VCU Research Dashboard Include?

Items Planned for Principal Investigators:

<table>
<thead>
<tr>
<th>Management Tools</th>
<th>Reports:</th>
</tr>
</thead>
<tbody>
<tr>
<td>Active Award Direct Cost Summaries – with drill-down</td>
<td>Monthly Expense Reports</td>
</tr>
<tr>
<td>Personnel Commitment Checks</td>
<td>Payroll Distribution Reports by Effort Period</td>
</tr>
<tr>
<td>Active IRB/IACUC Protocol List</td>
<td>Research Portfolio Summary</td>
</tr>
<tr>
<td>Pending Proposal List</td>
<td>Active Award Details</td>
</tr>
<tr>
<td>Statistics</td>
<td>Active/Pending Support</td>
</tr>
</tbody>
</table>

Dashboard will include Alerts/Notifications and Links to relevant school/university resources and systems.
Additional Features for Administration

- Department, School, VP level reports, summaries & statistical information as appropriate for each level
- Direct dashboard views in critical areas to be managed such as:
  - Research fund deficits
  - 90-day notice for personnel re-assignment
  - Effort reporting reminders/past due notices
Current Project Status

- Detailed project specification/requirements for each user type have been defined.
- Prototypes have been developed for user groups.
- University offices working to ensure system infrastructure is laid out properly and all data needed for Dashboard is fed into ODS:
  - Office of Research
  - Controller’s Office
  - Human Resources
  - Technology Services
- Updated project timeline and roll-out schedule coming soon

PRINCIPAL INVESTIGATOR CERTIFICATIONS, DISCLOSURES AND ASSURANCES

By signing below I certify that I have read and understand the statements below and those contained in this Internal Approval Form and further certify that the statements contained herein are accurate and truthful to the best of my knowledge and belief:

☐ ☐ Yes No  All applicable items contained in the Compliance Data section have been identified. Investigator agrees to abide by any obligations applicable under VCU policies or other legal requirements (e.g., obtaining protocol approvals, adhering to export control laws, maintaining confidentiality, etc.).

☐ ☐ Yes No  Investigator has read and understands VCU’s Conflict of Interest and Researcher Financial Conflict of Interest policies, has made any required disclosures, and prior to the expenditure of any awarded funds, if applicable, shall have reached an agreement with VCU for conditions or restrictions to reduce, manage or eliminate any conflicts of interest under University policy.

☐ ☐ Yes No  The enclosed proposal is complete in technical content, adheres to norms of proper scholarship and responsible conduct of research, including proper citation and attribution for all text and graphics, complies with federal guidance on research integrity (e.g., see VCU policy on responsible conduct in research), and is in accordance with all specifications from the sponsoring agency.

☐ ☐ Yes No  The space/facilities and other VCU resources necessary to conduct the proposed project are currently available to the investigators and if not currently available, arrangements will be made with the Department/School/Division to make all necessary resources available in the event an award is made by the sponsor.

☐ ☐ Yes No  If the proposal enclosed is funded and accepted by VCU, Investigator agrees to conduct the project in accordance with all terms and conditions stipulated by the sponsoring agency and all applicable VCU policies and procedures; furthermore, Investigator agrees to be fully responsible in meeting the requirements of the award, including but not limited to, proper and ethical stewardship of funds, timely submission of all required technical reports and deliverables, proper disclosure of all inventions to VCU’s Technology Transfer Office, and also adhering to all federal compliance requirements (e.g., Export Control, HIPAA, IRB, IACUC, other Human Research protections, etc.).

☐ ☐ Yes No  Investigator acknowledges that any false, fictitious, or fraudulent statements or claims may subject me to criminal, civil, or administrative penalties.

University Official/Date
Clarification of NIH Fiscal Policy for Grant Awards – FY 2011

**Notice Number:** NOT-OD-11-077

**Key Dates**
Release Date: May 20, 2011

**Related Notice**
NOT-OD-11-068

**Issued by**
National Institutes of Health (NIH), (http://www.nih.gov)

This Notice provides clarification to the guidance about the NIH Fiscal Operations Plan for FY 2011 and implementation of the Department of Defense and Full-Year Continuing Appropriations Act of 2011 (P.L. 112-10) that was announced in NOT-OD-11-068.

**Non-Competing Research Awards for All NIH Institutes and Centers (ICs) Except the National Cancer Institute (NCI):** The FY 2011 appropriation level specified in P.L. 112-10 reduces funding from FY 2010 levels and thus warrants reductions in commitment levels for NIH research grants. Non-modular research grants, from all ICs, with the single exception of NCI, will be reduced to 1 percent below the FY 2010 award level. Future year commitments will be adjusted for inflation based on this revised FY 2011 level, taking into account the policy assumption in the FY 2012 President’s Budget. Modular grants will be reduced to 1 percent below the FY 2010 level and may be reduced by an inflationary adjustment level set by each Institute or Center (up to the level set by that Institute or Center for non-modular research grants). The adjusted FY2011 award level will also be the new base for future year commitments.

**Non-Competing Research Awards for NCI:** For NCI, Non-modular research grants will be reduced to 3 percent below the FY 2010 award level. Future year commitments will be adjusted for inflation based on this revised FY 2011 level, taking into account the policy assumption in the FY 2012 President’s Budget. Modular grants will be reduced to 3 percent below the FY 2010 level.

**Additional Information:** Additional details on Fiscal Operations, including specific funding strategies for ICs will be posted at [http://grants.nih.gov/grants/financial/index.htm](http://grants.nih.gov/grants/financial/index.htm).

**Inquiries**
Questions about specific awards may be directed to the Grants Management Specialist identified in the Notice of Award.

VCUeRA Workflow and Closeout Update

Presentation Topics:

• VCUeRA Workflow
  • Progress to date
  • Phase Four, the “Post Award” Transactions Implemented
  • Updated Phase Five Diagram and Definitions
  • Notifications: What you Need to Know
    – Associated emails
    – “Status” versus Activity Table: location and use

• Closeout of Older Awards and “Not Awarded” Proposals

Progress to Date

Why Workflow?

• Consistency across OSP teams and reviewers
• Efficiency of process
• Transparency of procedures
• Report current status
• Clarification of OSP roles and responsibilities
• Documentation of compliance
• Focus on OSP internal “hand offs”

Closeout Notifications:
What you Need to Know

• Developing emails notifications to support the Closeout process-will have same “look and feel” of other VCUeRA communications

• Developing the reports to help with tracking of awards in closeout

• Internally, OSP will utilize both the “status” as well as the “Activity Table” features to track records being closed out

Summer Closeout Project

• Closeout needed for ~1200 records: Awards that have ended.

• In many cases, whatever was due to the sponsor has been submitted and what remains to be done is only internal, however we will be assessing each record (and contacting PI/FA as needed) to ensure we’re thorough in our process. We’ll contact PI/FA if items are missing.

• OSP Post Award Team coordinates closeout for Government/NonProfit records: ospaward@vcu.edu

Workflow Phase Five

Office of Sponsored Programs Award Closeout

Implementation June 2011
Summer Closeout Project

Update on “Not Awarded” Records:

• Have been utilizing NIH’s eraCommons to identify proposals that were triaged (so we can remove them from our active records)

• Have sought update from CAR (Committee on Administration of Research) school members for oldest of the records-OSP currently processing those responses

• Our plan to initiate regular emails directly to Principal Investigators a year from submission to query status

©VCU 2011 Office of Sponsored Programs/Office of Research
Sponsored Project Administration Certification Program

• Program runs annually from September-December, 2011
• On-line registration will begin later in the summer—will be announced through Research Administration list serve
• Nominal fee charged to cover lunch expenses
• Program is geared toward research administrators with 3 years of experience, but beneficial for those just starting out as well as those experienced in the field
Sponsored Project Administration Certification Program

Course Outline:
Each module consists of on-line material and one live lecture with subject review and case studies. Each module is divided into units. A quiz follows each unit and an on-line exam follows each module.

Module 1: Pre-Award to include:
Overview, proposal preparation, budget building basics, advanced budget/proposal preparation

Module 2: Compliance to include:
Research protections, research security, administration (OMB Circular A-110), intellectual property, research integrity

Module 3: Clinical Trials to include:
Clinical trials overview, budgeting for clinical trials, master agreements, WIRB, study termination and closeout

Module 4: Post Award Basics to include:
Costing (OMB Circular A-21), accounting, personnel, purchasing, account management

Module 5: Project Management to include:
Advanced project management, Recordkeeping and Audit, other Special Situations

What is the Definition of a Clinical Trial at VCU?
And Why Is the Definition Important?

Melanie Wiggins
Director, OSP-Industry
VCU’s Definition of a Clinical Trial

**Clinical Trial:** A clinical trial is an interventional or observational prospective research study involving human subjects that is designed to answer specific questions about biomedical (e.g., drugs, treatments, devices) or behavioral interventions (e.g., diet modifications, physical activity) through the compliant collection and analysis of safety and efficacy data as measurement for health outcomes. In an interventional clinical trial, research subjects are assigned to a treatment or other intervention and their outcomes are measured. In an observational clinical trial, interventions given during the course of clinical care are observed and outcomes are measured by the researchers. Preclinical laboratory studies or studies in animals are not considered clinical trials.
Clinical Research vs Clinical Trial

A clinical trial is considered clinical research but not all clinical research is considered to be a clinical trial.
Examples of Clinical Research

Human subjects research describing:

• The mechanism of human disease (diagnosing Alzheimers Disease)

• The use of therapies or interventions for disease.

• Patient registries (tracking long term survival rate of liver transplant patients)

• Data collection studies (e.g., blood samples and information on symptoms of pancreatitis)
Examples of Clinical Trials

Human subject research involving:

• Evaluations of new drugs, devices or treatments.
• Evaluations of existing drugs or devices for a new use.
• Prevention studies such as vaccine
• Post marketing studies involving an approved therapy and looking at treatment success, adverse reactions, etc.
• Behavioral studies modifying lifestyle such as diet or physical activity and the associated affects on health.
Where do I find the Definition of a Clinical Trial?
Where do I find the Definition of a Clinical Trial

The definition of a clinical trial can be found:

(1) On the Internal Approval Form
http://www.research.vcu.edu/forms/osp.htm

(2) Under the OSP Index
http://www.research.vcu.edu/osp/glossary.htm#ClinicalTrial

(3) On the Clinical Trial Office Website
http://www.cto.vcu.edu/about/index.html

AND

(4) In the Policy on Corporate Sponsored Research
http://www.research.vcu.edu/p_and_g/corpagreement.htm
Why is the Definition Important?

• Both the Clinical Trials Office (CTO) and the Office of Sponsored Programs (OSP) track clinical trials.

• The CTO tracks all clinical trials conducted at VCU for inclusion in their database as part of their mission to support and grow clinical research under the Center for Clinical and Translational Research.

http://www.clinicaltrials.vcu.edu/search.html
Why is the Definition Important?

• OSP tracks clinical trials in the VCUeRA database for award reporting purposes.

• VCU applies a special facilities and administrative (F&A) rate of 25% of total direct costs for industry and other non-federal sponsors.

• VCU tracks registration of clinical trials to clinicaltrials.gov in compliance with VCU policy and federal law.
